Based on the guidelines of National Assessment and Accreditation Council (NAAC), the College has conducted the Student Satisfaction Survey (SSS) for the quality improvements. Students are the important stakeholders of any educational institute; hence it becomes vital to obtain the opinion of the students on teaching and learning processes. The active participation of the students in the survey will not only empower the students but also help institutions in continuous quality improvement through student engagement. Twenty competency based questions assigned by NAAC regarding Teaching-Learning and Evaluation are used for the survey of the institution. These questions are randomly given to the 40.62 percent students and responses given by them are included in this survey. This survey is useful to improve the quality of institution in education and infrastructure.

We have implemented a SSS online using College website system in the month of March/April 2022. This study involved Under-Graduate and Post -Graduate students of Arts, Commerce, and Science. Total 312 Students participated actively in this survey.

Results are as follows:

- The total 312 students reported their responses mainly UG and PG students.175 Male and 137 Female students participated in this survey.
- Considering the survey, reported Arts in 106, Commerce 84, Science 123.
