S.Y.B.A. Environment Science Field Visit 2021-22

Objectives of Field Visit

- A field trip or excursion is a trip to a place away from their normal environment by a group of people.
- The trip is usually to observe education, non-experimental research or to provide learners with experiences outside their daily activities, such as camping with teachers and their classmates.
- The study is to observe and probably collect samples of the subject in its natural state

Outcomes of Field Visit

- Field trip is one of the best tools that we can use to provide every student with real-world experiences.
- Students are able to access tools and environments that are not available at school.
- Students who go on field trips become more empathetic and tolerant.
- Field based learning increases test scores.

To,

The principal,

Arts, Commerce and Science College,
Satral. Tal- Rahuri, Dist- Ahmednagar.

Subject: Permission for field visit to a Vermicomposting unit...

Respected Sir,

With reference to above subject the Department of Zoology wants to arrange a field visit to a well-established vermicomposting unit on 6th May, 2022. The vermicomposting unit is situated at. College campus, Tal- Rahuri, Dist- Ahmednagar. This visit will involve the 46 students of F.Y. B.Sc. This field visit will provide a practical based knowledge about rearing of vermiculture and production of vermicompost to the students. So, please allow us to arrange the same.

Thank you,

Yours Sincerely,

Dr. Ram S. Tambe

Dr. Vijay M. Pulate

A Field Visit to "VERMICOMPOSTING UNIT"

Introduction:

A field visit was organised by Department of Zoology, Arts, Commerce and Science College, Satral at college campus vermicomposting unit on 6th May, 2022 for the F. Y. B. Sc. students.

Vermicompost is known to be the world's best fertilizer. Vermicomposting is a method of preparing enriched compost with the use of earthworms. It is one of the easiest methods to recycle agricultural wastes and to produce quality compost. Earthworms consume biomass and excrete it in digested form called worm casts. Worm casts are popularly called as Black gold. The casts are rich in nutrients, growth promoting substances, and beneficial soil micro flora and having properties of inhibiting pathogenic microbes. Vermicompost is stable, fine granular organic manure, which enriches soil quality by improving its physicochemical and biological properties. It is highly useful in raising seedlings and for crop production. Vermicompost is becoming popular as a major component of organic farming system. Using Vermicompost can fulfil the requirements for organically grown products.

Field visit is one of the best tools that we can for students to give hands on experience in the lesson and enhance their life skills. So, to increase their knowledge about silkworm (related to their lesson fiber to fabric) and to develop their skill.

Objectives:

- To create awareness among students about benefits of organic farming.
- To explore propagation of vermicompost among students for better yield of Crop.
- To develop training, skill & team work spirit among students.
- To promote the students to make their own unit.

Outcome:

This field visit was of great use for students after practical knowledge they obtain. Students collected life cycle stages like eggs cocoon, young worms etc. understanding towards the concept and its application of vermicomposting technology are cleared to students after this visit.

Details of the Visit:

We the staff members along with students, reached the vermicomposting unit situated at college campus at 10 am. The unit was successfully run by the department of zoology. The details of the Vermi technology were discussed with him. The faculty members also guided the students. The students observed various stages of development from cocoon to young and adult earthworms.

Students interacted with their teacher to know about the vermiculture. They asked various questions arising in their minds. The students acquired the knowledge about species of earthworms, procurement of culture, their storage, harvesting and use of vermicompost. As many of the students are belonging to the farmers' families, they feel it as a great experience. Many of them asked about the economics of the vermiculture also. It was a good interaction session where the students clarified their doubts & some could answer his questions.

On the whole, it was very fruitful field visit for the students.

Along with the 02 teachers, 46 students from our college participated in this study visit.

Subject: Internship Completion Certificate

Dear Madam/ Sir,

I am happy to inform you that following students of your college have successfully Completed the 'Sixty Hours Internship Programme' in this organisation.

Sr. No.	Name of the student	Roll No.	Aadhar No.	Special Subject
1.	Wabale Shikant Vishwanath	60	348015521927	B. Administration

These students have been provided with adequate exposure and necessary hands- on training pertaining to their special subject.

I am confident that these students will perform effectively in similar type of organisations.

I wish them every success in future endeavors.

Thank you.

Sincerely,
