The Department of Chemistry organised a 'Guest Lecture' on the topic "Carrier Opportunities in Dairy Industries" on September 15, 2022. Mr. Namdeo Dukre, President of Kisan Seva Sang, was the guest speaker. He is an eminent pharmacist and has vast experience and knowledge in the area of milking systems. The event began with a brief introduction of the guest speaker, Mr. Namdeo Dukre. The guest speaker was heartily welcomed by Dr. A.S. Waghmare, Head of the Chemistry Department.

Mr. Namdeo Dukre discussed at length the concept of milking systems. He conversed about new strategies for sustainable systems for dairy production and development. He also explained that, apart from being an important sector globally, dairying is equally important in developing economies in developing countries like India for providing declining nutrition, reducing rural poverty and inequity, ensuring food security for millions of rural households, and enhancing economic growth, particularly in rural areas. He described a global overview of the dairy industry, a milk world scenario, and future trends in the global dairy industry. He also highlighted operation modes, dairy cooperatives, and innovations.

60 students as well as faculty members actively participated in the program. This session was very informative and interactive. The lecture concluded with a short question-and-answer session followed by a vote of thanks proposed by Dr. C.S. Karle, Department of Chemistry.
