Affiliated to Savitribai Phule Pune University, Pune.

Self-Study Report: 2024 (3rd Cycle)

Criterion- 7

Institutional Values and Best Practices

Key Indicator: 7.1 - Institutional Values and Social Responsibilities

Metric: 7.1.2 (QnM)

The Institution has facilities and initiatives for

1. Alternate sources of energy and energy conservation measures
2. Management of the various types of degradable and nondegradable waste
3. Water conservation
4. Green campus initiatives
5. Disabled-friendly, barrier free environment

7.1.2: DVV Clarification

Submitted to
NATIONAL ASSESSMENT AND ACCREDITATION COUNCIL BENGALURU

1. Mechanism for E-Waste Management

The institute has implemented a robust E-waste management system designed to mitigate electronic waste through prioritizing repair and reuse. This approach ensures the maximum utilization of electronic equipment. Outdated computers are redirected to the PRES education society, where they are repaired and equipped with updated software to extend their operational life. In adherence to the E-Waste Management Rules-2016, Battery Waste Management Rules-2020 and Solid Waste Management Rules-2015, the PRES effectively manages and disposes of electronic waste. Non-repairable e-waste is systematically written off and sold through auctions, while miscellaneous electronic items, such as batteries and CDs, are collected from various departments and offices for environmentally responsible disposal. Used batteries are returned to Hariom Electronics (Loni Bk), where new batteries are purchased, supported by a GST invoice. This practice is formalized through a contract with Hariom Electronics dated September 14, 2019, underscoring the institute's commitment to sustainable waste management practices.

PRAVARA RURAL EDUCATION SOCIETY

(Estd. 1964)

Creating Noble Minds

Agreement for Recycling Electronic Items

This Agreement is made and entered into on this **June, 07, 2018**, by and between:

Pravara Rural Education Society, Pravaranagar, Tal-Rahata, Dist.- Ahmednagar, (Client), and Gore Computers, Shirampur, Tal – Shirampur, Dist. – Ahmednagar (Service Provider).

1. Purpose

The purpose of this Agreement is to establish the terms and conditions under which the Service Provider will collect, recycle, and process old computers and other electronic items from the Client.

2. Scope of Services

The Service Provider agrees to:

- Collect old computers and other electronic items from the Client's premises.
- Recycle or dispose of the items in accordance with all applicable environmental regulations and best practices.

3. Collection Schedule

- Collection of items will be scheduled as needed, upon request from the Client.
- The Service Provider will notify the Client of the scheduled collection date and time.

4. Responsibilities

- The Client is responsible for ensuring that all items are prepared for collection according to the Service Provider's guidelines.
- The Service Provider is responsible for handling and recycling the items in an environmentally responsible manner.

5. Confidentiality

- Both parties agree to keep confidential any information exchanged in relation to the recycling services provided.

6. Governing Law

- This Agreement will be governed by and construed in accordance with the laws of Govt of Maharashtra.
- All the rules and regulations laid down by the Government of Maharashtra will be strictly followed.

This Agreement constitutes the entire agreement between the parties and supersedes all prior agreements and understandings, whether written or oral, relating to the subject matter of this Agreement.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the date first above written.

Place : Pravaranagar

Date : 07th June 2018

Subject: Regarding Battery Annual Rate Contract for Buses of various units, Inverters, and UPS.

Sir,

As per the above subject and the decision in the Purchase Committee meeting on May 9, 2019, regarding the annual rate contract for the purchase of batteries of the Exide and Okaya models for buses, other vehicle inverters, and UPS at our various branches. We are finalizing the annual rate in accordance with the contract, valid from 16/09/2019 to 15/09/2020, or until further orders arrive. Also, according to the company price list, Exide: 15% discount, and Okaya Battery: 18% discount, and the old battery should be scrapped at the rate of 80/- per kg. After deducting the discount and deducting the cost of the scrap battery, the bill should be paid.

Terms and Conditions as below

Terms and Conditions :

- 1) You will be responsible for purchasing the battery at any time within 24 hours.
- 2) The battery purchase bill will be done promptly after checking the battery.
- 3) If company battery is not available in time, service battery in good condition will be provided.
- 4) You should pay Rs. 2000/- as a security deposit is mandatory to keep with the institution. This amount will be returned to you after the end of the contract. There will be no interest in it.
- 6) As the price of the battery in the company price list is inclusive of GST, the bill should be given with a separate head of the basic price, and the discount amount like Exide 15% and Okaya 18% should be deducted from the bill.
- 7) The mentioned rates will remain binding for a year and until further orders are received.
- 8) The agreement should be written on Rs. 100/- stamp paper.
- 9) You will have to reach the concerned branch at your own expense and take the old batteries with you.

ARTS, COMMERCE AND SCIENCE COLLEGE

SATRAL

Annual Maintenance Contract (AMC) for Electrical

An Annual Maintenance Contract (AMC) for electrical systems in college typically involves a comprehensive agreement with a service provider to ensure the proper functioning and upkeep of electrical infrastructure throughout the campus. Here is a breakdown of what it might include:

- 1. Scope of Services:** Define what systems and equipment are covered under the contract. This can include electrical panels, wiring, lighting fixtures, generators, transformers, etc.
- 2. Routine Inspections:** Regular inspections of electrical systems to identify any potential issues or areas needing maintenance. This might involve monthly, quarterly, or bi-annual visits depending on the complexity and size of the college.
- 3. Preventive Maintenance:** Scheduled maintenance activities aimed at preventing breakdowns and ensuring optimal performance. This can include cleaning, lubrication, tightening of connections, and calibration of equipment.
- 4. Emergency Repairs:** Provision for emergency call-outs in case of electrical failures or emergencies. The contract should specify response times and procedures for such situations.
- 5. Replacement of Parts:** Clarify who is responsible for providing replacement parts and whether they are included in the contract or billed separately.
- 6. Compliance Checks:** Ensure that all electrical systems comply with relevant safety standards and regulations. This might involve testing for electrical safety, fire safety, and compliance with local building codes.
- 7. Documentation and Reporting:** Maintain records of all maintenance activities, inspections, repairs, and replacements. Provide regular reports to the college administration outlining the status of the electrical systems and any recommendations for improvements.
- 8. Training:** Optionally, the contract may include provisions for training college staff on basic electrical safety procedures and how to identify potential issues.
- 9. Contract Duration and Renewal:** Specify the duration of the contract (usually one year) and the process for renewal. This includes any terms for termination or modification of the agreement.
- 10. Cost and Payment Terms:** Clearly outline the cost of the contract, including any recurring fees, as well as the payment schedule and terms.

11. Insurance and Liability: Define the insurance coverage and liability of both parties in case of accidents, damages, or injuries related to electrical maintenance activities.

12. Dispute Resolution: Include procedures for resolving any disputes or disagreements that may arise during the course of the contract.

13. Terms and Conditions: Include any other terms and conditions relevant to the agreement, such as indemnification clauses, confidentiality agreements, and non-compete clauses.

By having a comprehensive AMC in place, our institution can ensure the safety, reliability, and efficiency of its electrical systems, allowing it to focus on its core mission of education without worrying about unexpected electrical issues.

Subject: Submission of E-Waste Material ...

Respected Sir,

As per the instructions and guidelines set by the society, we have conducted an E-waste collection drive in various departments of our college. The collected E-waste includes faulty and outdated electronic equipment such as printers and other related items.

The Head of the IT Department has reviewed these materials and has recommended that they be sent to the IT department for proper disposal or recycling, in compliance with environmental and safety regulations. We understand that the store department is responsible for facilitating the collection and further transfer of these materials.

Sr. No.	Material Name	Quantity
1	Printer (Canon LPB2900)	01

3. Management of the various types of degradable and non-degradable waste

The college is committed to reducing its environmental impact through waste reduction, carbon footprint minimization and recycling. It actively participates in initiatives like *Swachh Bharat Abhiyan*, organizing cleanliness drives, awareness rallies and street plays to promote responsible waste management.

The college follows the 4R principles—reduce, reuse, recycle and recover garbage and has a waste management system in place that complies with Solid Waste Management Rules (2015), E-Waste Management Rules (2016), and Battery Waste Management Rules (2020). The civil and maintenance departments collect and sort campus waste into biodegradable and non-biodegradable categories, ensuring efficient disposal and recycling.

3.1 Biodegradable Solid Waste Management

A) Segregation at source:

The institute's Civil Department handles daily cleaning and maintenance of academic buildings and surrounding areas. A two-bin system, with Green bins for Wet Waste and Blue bins for Dry Waste, is used for waste collection. About 90% of waste is biodegradable, including plant litter, food waste, and paper. The college has reduced paper use by digitalizing administrative processes. Waste is collected using worker assistance.

Photographs: Dust Bins used for Solid Waste Management
(1) Green dustbin for Wet Waste and (2) Blue dustbin for Dry Waste

Solid waste collection at College campus by the waste management vehicle of Gram panchayat

B) Plant Litter Vermicompost:

The college has set up an efficient composting system using a vermicompost pit. The Civil Department, with guidance from the Zoology Department staff, manages the vermicomposting unit. This unit focuses on converting daily organic waste, especially dry leaves from the campus, into high-quality vermicompost. The vermicompost produced is used in the campus's organic farm, enriching the soil and reducing the need for chemical fertilizers.

Vermicomposting

“Vermicomposting is a process in which the earthworms convert the organic waste into manure rich in high nutritional content.”

What is Vermicomposting?

Vermicomposting is the scientific method of making compost, by using earthworms. They are commonly found living in soil, feeding on biomass and excreting it in a digested form.

Vermiculture means “worm-farming”. Earthworms feed on the organic waste materials and give out excreta in the form of “vermicasts” that are rich in nitrates and minerals such as phosphorus, magnesium, calcium and potassium. These are used as fertilizer and enhance soil quality.

Vermicomposting comprises two methods:

- **Bed Method:** This is an easy method in which beds of organic matter are prepared.
- **Pit Method:** In this method, the organic matter is collected in cemented pits. However, this method is not prominent as it involves problems of poor aeration and waterlogging.

Process of Vermicomposting

The entire process of vermicomposting is mentioned below:

Aim

To prepare vermicomposting using earthworms and other biodegradable wastes.

Principle

This process is mainly required to add nutrients to the soil. Compost is a natural fertilizer that allows an easy flow of water to the growing plants. The earthworms are mainly used in this process as they eat the organic matter and produce castings through their digestive systems.

Materials Required

Water.	Earthworms.
Cow dung.	Weed biomass

Thatch Roof.	A large bin (plastic or cemented tank).
Soil or Sand.	Dry straw and leaves collected from paddy fields
Gunny bags.	Biodegradable wastes collected from fields and kitchen.

Procedure

1. To prepare compost, either a plastic or a concrete tank can be used. The size of the tank depends upon the availability of raw materials.
2. Collect the biomass and place it under the sun for about 8-12 days. Now chop it to the required size using the cutter.
3. Prepare a cow dung slurry and sprinkle it on the heap for quick decomposition.
4. Add a layer (2 – 3 inch) of soil or sand at the bottom of the tank.
5. Now prepare fine bedding by adding partially decomposed cow dung, dried leaves and other biodegradable wastes collected from fields and kitchen. Distribute them evenly on the sand layer.
6. Continue adding both the chopped bio-waste and partially decomposed cow dung layer-wise into the tank up to a depth of 0.5-1.0 ft.
7. After adding all the bio-wastes, release the earthworm species over the mixture and cover the compost mixture with dry straw or gunny bags.
8. Sprinkle water on a regular basis to maintain the moisture content of the compost.
9. Cover the tank with a thatch roof to prevent the entry of ants, lizards, mouse, snakes, etc. and protect the compost from rainwater and direct sunshine.
10. Have a frequent check to avoid the compost from overheating. Maintain proper moisture and temperature.

Result

After the 24th day, around 4000 to 5000 new worms are introduced and the entire raw material is turned into the vermicomposting.

Advantages of Vermicomposting

The major benefits of vermicomposting are:

1. Develops roots of the plants.
2. Improves the physical structure of the soil.
3. Vermicomposting increases the fertility and water-resistance of the soil.
4. Helps in germination, plant growth, and crop yield.
5. Nurtures soil with plant growth hormones such as auxins, gibberellic acid, etc.

Report: Sale of Vermi Compost

On January 3, 2023, Arts, Commerce, and Science College, Satral, successfully sold vermi compost to Mr. Satish Musale of Loni Village. The total transaction amount was ₹4,500. The sale was part of the college's initiative to promote sustainable agricultural practices and utilize its vermi compost production effectively. The transaction was conducted smoothly, and the payment was received in full. This sale reflects the college's commitment to environmental stewardship and community engagement through the promotion of eco-friendly practices.

3.2 Management of Non-Biodegradable Waste

The college collects and processes non-biodegradable wastes such as glass, plastics, e-waste, furniture, and metal waste in accordance with its waste management policy.

a) Plastic Waste:

The college has taken important steps towards environmental sustainability by enforcing a green campus and waste management policy. A firm ban on the use and disposal of plastic items is in place and signboards have been placed across the campus to remind everyone of the institution's commitment to a plastic-free environment.

Ban on Use of Plastic

Plastic Waste Collection in Satral Village

b) Glass Waste:

Broken glassware is collected in designated areas, repaired, or disposed of according to the institute's policy. To manage this, the college has signed a Memorandum of Understanding (MoU) with Amol Scientific Glassware Pvt. Ltd. for the proper handling and processing of glass waste.

विषय - ज्ञानज्योती बहुउद्देशीय संस्था टाकळीभानच्या वतीने दरवर्षी विविध पुरस्कार व विविध साहित्याची वाटप कार्यक्रमासाठी उपस्थित राहण्या बाबत.

महोदय,

आपणांस कळविण्यात अत्यंत आनंद वाटतो की, ज्ञानज्योती बहुउद्देशीय संस्था टाकळीभानच्या वतीने दरवर्षी विविध पुरस्कार व विविध साहित्याची वाटप केले जाते.2022- 23 या वर्षामध्ये आमच्या संस्थेच्या वतीने दिव्यांग व्यक्तीसाठी तसेच महाविद्यालयातील विद्यार्थ्यांसाठी साहित्याची वाटप केले जाते.

आपल्या महाविद्यालयातील दिव्यांग विद्यार्थ्यांसाठी Wheelchair आपणास देण्यात येत आहे. आपण दि.07/10/2023 रोजी सकाळी 10 वाजता सदर कार्यक्रमासाठी उपस्थित राहावे ही विनंती.

आपला विश्वासू

श्री.अर्जुन बी. राऊत

अध्यक्ष, ज्ञानज्योती बहुउद्देशीय संस्था

Gyanjyoti Multipurpose Institute, Taklibhan

Ref. No. 582

Date: 25/09/2023

To,

The Principal,

Arts, Commerce, and Science College,

Sakur, Tal. Rahata, Dist. Ahmednagar.

Subject: Invitation to attend the prize distribution ceremony organized by Gyanjyoti Multipurpose Institute, Taklibhan, and distribution of various literary items.

Respected Sir,

We are pleased to inform you that Gyanjyoti Multipurpose Institute, Taklibhan, organizes a prize distribution ceremony every year, along with the distribution of various literary materials. On the occasion of the academic year 2022-23, we are conducting a similar event for the distribution of prizes and literary items to the students of the college.

A wheelchair has been arranged for the disabled students of your college. You are requested to kindly attend this program on 07/10/2023 at 10:00 AM. We request your presence for this event.
