Policy on Scholarships and Freeships

Introduction:

The college is committed to support students from diverse backgrounds through various scholarship and freeship programs. It offers a range of government and non-government scholarships, along with financial assistance from the Satral College Student Help Group. These initiatives are designed to ensure that financial constraints do not hinder deserving students from accessing quality education. Our policy on scholarships and freeships aims to provide equitable opportunities for all students, fostering an inclusive and supportive academic environment.

- c) At the time of admission, students and parents must ensure eligibility for any financial concessions or scholarships.
