Subject: Permission for field visit to a Vermiculture unit and Sericulture unit.

Respected Sir,

With reference to above subject the Department of Zoology wants to arrange a field visit to a well-established vermiculture unit and sericulture unit on 26<sup>th</sup> April, 2022. The vermiculture unit is situated at. Durgapur, Tal- Rahata, Dist- Ahmednagar and sericulture unit at. Chandrapur, Tal- Rahata, Dist- Ahmednagar. units are well known for vermicomposting and production of raw silk. This visit will involve the 48 students of S.Y. B.Sc. This tour will provide a practical based knowledge about rearing of vermiculture and sericulture to the students. So, please allow us to arrange the same.

Thank you,

Yours Sincerely,

## **A Field Visit to**

### **“VERMICOMPOSTING AND SERICULTURE UNIT”**

#### **Introduction:**

A field visit was organised by Department of Zoology, Arts, Commerce and Science College, Satral in collaboration with Anand Agri Biotech, Durgapur Tal- Rahata, Dist- Ahmednagar and sericulture unit at Chandrapur (Ghule Patil farm) for the students. The activity was organized on 26<sup>th</sup> April, 2022 under the MoU signed between Department of Zoology and Anand Agri Biotech, Durgapur dated 22/02/2022.

Field visit is one of the best tools that we can for students to give hands on experience in the lesson and enhance their life skills. So, to increase their knowledge about silkworm (related to their lesson fiber to fabric) and to develop their skill.

#### **Objectives:**

- To create awareness among students about benefits of organic farming.
- To explore propagation of vermicompost among students for better yield of Crop.
- To develop training, skill & team work spirit among students.
- To promote the students to make their own unit.
- To demonstrate the life cycle of silk worm.
- Practical exposition of agriculture of this field of mulberry to obtain its leaves, on which silkworm caterpillar feeds.
- Observe the life cycle of *Mombyx mori*-hundreds of eggs were laid on leaves, caterpillar feeding on leaves of mulberry, cocoon collected to extract silk, adults collected in jars.
- Illustrations of equipment used in rearing silkworms.
- Cost effective methods and material required to establish sericulture.
- Application and economic importance of silk culture.

#### **Outcome:**

This field visit was of great use for students after practical knowledge they obtain. Students collected life cycle stages like, eggs, leaves, cocoon etc. understanding towards the concept and its application of sericulture was cleared to students after this visit.

#### **Details of the Visit:**

We the staff members along with students, reached the vermicomposting unit situated at Durgapur at 10 am. The unit was established in 2015-16 and successfully run by the owner Mr. Prashat L. Pulate. The details of the Verm technology were discussed with him. The faculty members also guided the students. The students observed various stages of development from cocoon to young and adult earthworms.

Students were trained in handling the equipment's and earthworms. The students studied the different stages in the life-cycle of earthworm. They observed the different methods of bed preparation, inoculation and separation of culture. The trainer Mr. Prashant L. Pulate explained different stages and methods of vermicomposting in details. He started the

session with interesting information about vermiculture. He explained the production technology with materials used, process of preparation and harvesting of the compost.

He focused on the fact that vermicompost has been emerging as an important source in supplementing and substituting chemical fertilizers in agriculture. Vermicompost, also known as 'farmer's friend' is used for general crops and plantation crops. It is a valuable input for sustainable agriculture and wasteland development. It is a growth promoter and helpful in providing hormones required for plant growth. There is a lot of demand for vermicompost among farmers as its use increases quality of agricultural products and its price is also cheaper. It is also used widely in pot culture and in home gardens. In addition, many government departments including agriculture, forest and horticulture buy it in bulk. Its demand has decreased over the years. Government agencies and NGOs are popularizing organic agriculture using vermicompost by organizing awareness campaigns and film show in rural and urban areas.

Students interacted with the trainer and farm-workers to know about the vermicomposting unit. They asked various questions arising in their minds. The students acquired the knowledge about species of earthworms, procurement of culture, their storage, harvesting and use of vermicompost. As many of the students are belonging to the farmers' families, they feel it as a great experience. Many of them asked about the economics of the vermiculture also. It was a good interaction session where the students clarified their doubts & some could answer his questions. Mr. Prashant Pulate was delighted with the students' response.

At 11.05 am reached the sericulture farm. There we met Mr. Ghule Patil owner of the sericulture farm. They gave a welcome to us. There we saw how the caterpillar feeding. Then students took silkworm caterpillar in their hand and excitedly discussed on their body structure. It was really a wonderful session. After that we stepped into mulberry plantation area and saw the mulberry leaves. Then Mr. Ghulepatil gave an informative lecture in 'life history of silk moth'. Finally, we thanked him for giving us an opportunity to visit her sericulture farm.

On the whole, it was very fruitful field visit for the students.

Along with the 02 teachers, 48 students from our college participated in this study visit.

**Subject:** Permission to conduct solar energy awareness outreach activity in Kandgaon Village

Respected sir,

The Department of Physics is dedicated to educating communities about the importance of renewable and solar energy. We believe that by engaging with schools and villages in our periphery, we can make a significant impact on raising energy awareness. The proposed outreach activity will include live demonstrations of solar energy-based equipment. We intend to stay in touch with local schools and community leaders to ensure that this activity aligns with the needs and interests of the target audience.

We kindly request your permission to conduct this outreach activity in Kandgaon village for school students and villagers on Tuesday and Wednesday, 05-06<sup>th</sup> Jan 2022. Thank you in advance.

Date: 01/01/2022

The Department of Physics hereby informs you that we are going to conduct a Solar Energy Awareness outreach activity in Kandgaon village on Tuesday and Wednesday, 05-06<sup>th</sup> Jan 2022. The proposed outreach activity will feature live demonstrations of solar energy-based equipment for both school children and villagers. Interested students will have the opportunity to work as volunteers and demonstrators for this activity.

Those students who are interested are requested to contact the Head of the Department of Physics within two days from the date of this notice. Our department staff will provide guidance for the preparation of demonstration models and other relevant information.

**Note: Interested students (as a volunteers) are requested to gather in the department of physics on Monday, 3 Jan 2022 at 11.30 am.**

**Solar Energy Awareness Program in Nearby Schools & Villages**  
(Outreach/Extension Activity)

**Introduction:**

The sun is continuously releasing solar radiation, some of which will eventually reach the earth. We make use of this solar energy in a number of different ways. It helps to support day to day life, can generate electricity and can even heat our water. Why solar energy is most important natural energy sources available to our earth?

- 1. Solar energy is good for the environment:** Unlike fossil fuels, solar energy doesn't produce any greenhouse gases or carbon emissions like methane, nitrous oxide, carbon dioxide, etc. Therefore, it is much better for the environment and can help to reduce pollution.
- 2. The Sun is renewable:** The Sun is renewable energy source and we can continue to use it day after day.
- 3. Solar power can improve energy security:** By using more solar energy, a country can help to increase its energy security.
- 4. The solar energy industry creates jobs:** The solar energy industry has a potential to give large number of jobs all over the world.
- 5. Solar energy has different uses:** Along with electricity generation solar energy can be used for heating water, cooking, drying, solar water pump, solar fan etc.
- 6. It can reduce your energy bills:** Solar energy has the potential to reduce or even eliminate your energy bills. This is the key reason why many homeowners and farmers have opted to install solar energy systems.
- 7. Solar technology offers a return on investment:** Both solar electricity and solar based equipment's are capable of offering a return on investment (ROI) over their lifetime.
- 8. The sun has many other natural benefits:** The sun supports life on earth in many different ways. It helps to grow our crops in order to provide food, supports the habitats of many living creatures and also provides light and warmth, helping us to see and stay warm.

**Aim and Objectives:**

1. To create solar energy awareness & scientific interest among students & Villagers.
2. To encourage and create awareness among villagers about the use of solar/renewable energy for various day-to-day life applications.
3. To guide students and stakeholders on the workings of solar energy-operated instruments.

**ACTIVITY REPORT**

**Solar Energy Awareness Outreach Activity, Kandgaon**  
**(Tuesday-Wednesday, 05-06<sup>th</sup> Jan 2022)**

The Department of Physics organized a solar energy awareness program at Pragati Madhyamik Vidyalay Kandgaon and in NSS Camp Kandgaon on Tuesday, 5<sup>th</sup> January, and Wednesday, 6<sup>th</sup> January 2022, respectively. The activity aimed to educate students and villagers about the significance of solar energy.

Dr. N. S. Kanhe commenced the event with an informative session on the importance of solar energy awareness, emphasizing its benefits and the necessity of adopting sustainable energy solutions. He also highlighted the environmental sustainability and pollution control benefits of using solar energy. Thus this extension activity, emphasized sustainable practices and environmental protection. Following Dr. Kanhe's introduction, the volunteers demonstrated various solar-powered devices, including a solar fan, a solar water pump, and a solar heater. These demonstrations provided practical insights into how solar energy can be harnessed for everyday use. The volunteers ensured an interactive learning experience by addressing the students' and villagers' questions and clarifying their doubts.

Two staff members, accompanied by nine volunteers, actively participated in the activity. Around 250 students from 5<sup>th</sup> to 10<sup>th</sup> classes in school and 125 villagers attended the program, gaining valuable knowledge about solar energy and its applications. The initiative successfully engaged the students, fostering a deeper understanding and appreciation for renewable energy sources. The program was well-received and made a significant impact on both the students and the broader Kandgaon village community.

प्रतिनिधी | नगर

कोरोना महामारीच्या आपली काळात कोरोना बाधित ठरलेल्या शिक्षक व शिक्षकेतर कर्मचाऱ्यांना विशेष रजा मंजूर करण्याची मागणी राज्य शिक्षक परिषदेच्या वतीने करण्यात आली आहे. या मागणीचे निवेदन शिक्षक परिषद मुंबई विभागाचे अध्यक्ष उल्हास बडोदेकर, कार्यवाह शिवनाथ टराडे, महिला आचार्यीप्रमुख वैजाली नादकणी

आहे. अशा मुंबईसह इतर भागात दहावी बारावीचे बर्ग ऑनलाइन घेण्याची शिक्षक परिषदेची भूमिका अमल्याचे स्पष्ट करण्यात आले आहे.

एप्रिल २०२० पासून अनेक शिक्षक कोरोना ड्यूटीवर महाराष्ट्रभरात होते. कोरोना समसमूळे अनेकानी सरकारी व खासगी स्थापनात उपचार घेतले, तर काहींना घरजवळ किडगकरण राहून उपचार घेतले आहे. सध्या कोरोनाने अनेक शिक्षक शिक्षकेतर कर्मचारी बाधित झाले आहेत. शाळासमूधून

## NEWSPAPER PUBLICITY

### सात्रळ महाविद्यालयातील 'रासेयो' तर्फे एड्स जनजागृती

प्रतिनिधी | सात्रळ

येथील कला, वाणिज्य व विज्ञान महाविद्यालयातील राष्ट्रीय सेवा योजना व रेड रिबन क्लब यांच्या संयुक्त विद्यमाने सात्रळ गावातून एड्स जनजागृती रॅलीचे आयोजन करण्यात आले. 'रासेयो'च्या स्वयंसेवकांनी एड्स विषयक घोषणा देवून आणि जनजागृतीपर फलक हाती घेऊन सात्रळ लोकांमध्ये एड्स आजारविषयी जनजागृती आणि प्रबोधन केले.

एड्स प्रबोधन रॅलीचे उद्घाटन प्रभारी प्राचार्य प्रो. डॉ. सोमनाथ घोळप, उपप्राचार्य प्रा. दीपक घोळप, सरपंच सतीश ताडे, प्राथमिक उपकेंद्राचे आरोग्य अधिकारी डॉ. प्रवीण तांबोळी, राष्ट्रीय सेवा

योजनेचे कार्यक्रमाधिकारी प्रा. रोहित भडकवाड, डॉ. नीलेश कान्हे, प्रा. वैभव दिवे, प्रा. डॉ. नितीनकुमार पाटील, प्रा. दिनकर घाणे, डॉ. गोरक्ष बोर्डे, प्रा.लतिका पंडुरे व ग्रामस्थांच्या उपस्थितीत झाले.

लोणी प्राथमिक आरोग्य केंद्राचे समुपदेशक संतोष उबाळे म्हणाले, एड्स रोगाचे नियंत्रण हे तरुण पिढीवर अवलंबून आहे. तरुणांनी स्वतःचा एड्सपासून बचाव केला, तरच राष्ट्राचा बचाव होऊ शकतो. उपप्राचार्य डॉ. भाऊसाहेब नवलें यांनी विद्यार्थ्यांच्या उपक्रमाचे कौतुक करत अशाच प्रकारचे उपक्रम समाजासाठी राबवावेत व समाजाभिमुख कार्य करावे, असा सदेश दिला.

## REPORT ON HEMOGLOBIN CHECKING PROGRAM

BY

### WOMEN EMPOWERMENT CELL

<b>Date</b>	:	8 <sup>th</sup> March 2022
<b>Location</b>	:	Arts, Commerce and Science College, Satral
<b>Activity</b>	:	Hemoglobin Checking Program
<b>Organized by</b>	:	Women Empowerment Cell
<b>Participants</b>	:	45

The Women Empowerment Cell of Pravara Rural Education Society's Arts, Commerce and Science College, Satral, organized Hemoglobin checking program on 8<sup>th</sup> March, 2022 for 45 female students from rural areas. The aim was to raise awareness about healthy hemoglobin levels and the impact of diet on HB levels. The activity took place in the college, with hemoglobin checking stations set up and managed by trained medical staff. Each student underwent a simple finger-prick test and results were recorded.

After the tests, nutritionists and health educators conducted an interactive session on the importance of a balanced diet rich in iron and essential nutrients, using visual aids to illustrate their points. The program concluded with vote of thanks from Mrs. A.C. Salunke.

Respected Sir,/Madam

Greetings from Rubicon!

It is my pleasure to introduce **Rubicon**; **Rubicon** was conceived with a dream of a world where every youth has the power to transform lives for themselves and others around them. We strongly believe that every youth has the potential to make a difference in their personal lives as well as the community around them. We build competencies, which would help youth seek careers and prosper in their career of choice. We bring excitement into learning by developing and harnessing their curiosity and intrinsic motivation for learning.

**Rubicon's** "Lifeskills" Program, supported by Barclays aims at improving the employability skills of the youth. This initiative is supported by Barclays. Under this program, students will be trained by Corporate Trainers to enhance their Life skills which would help them significantly to increase their chance of succeeding in a job interview. This program is being launched with limited no of colleges in India.

We are looking forward to partner with your institute and plan to run the below initiatives:

1. **24 hrs. classroom training on Interview Skills ( Details mentioned below).** Due to lockdown this is divided into two parts – 18 hours virtual and 6 hours classroom training. 18 hours of virtual training will be delivered by a Corporate Trainer using Zoom/Webex as a platform – training will be conducted 2 hours per day for 9 days. 6 hours of face to face training will be done once the lockdown is lifted and before the campus placement starts.

2. **Industry visit of students to various organizations.**

3. **Post Placement Mentoring and Career Counselling support to placed students for one year.**

In Life Skills training, we will be covering the below topics:

1. Organizational Structure
2. Public Speaking
3. Presentation Skills
4. E-mail Etiquette
5. Grooming
