## Academic Management System

# Academic Management System

The college has a well structured management system headed by the Principal. Besides the assistance from teaching and non-teaching staff, software such as VRIDDHI, KOHA, TALLY are also put to use for the effective management of various student and staff related activities in the college.

**VRIDDHI**, a software was purchased in Jan, 2011 from Hindustan Computers, Malegaon and is being used in student section for the admission and examination related work. Various types of reports are generated with the help of above mentioned software.

The college has purchased '**KOHA**' Software in January 2016 especially for Library which is a cloud hosting on Microsoft azure. Web based Library software provides WEB OPAC (Online Public Access Catalogue), E-mail and SMS alert. The software works as a single window where the record of the users along with circulation status, fine status, contacts details, reading and circulation history is maintained. Reports like usage and issue are generated with the use of above mentioned software.

The college has also purchased '**TALLY**' Software in March 2017 from Soft Track Solutions, Nashik. This software is used in accounts and finance section of the college for the data entry, journal ledger, trial balance, income and expenditure, balance sheet, and bank reconciliation.

These software are upgraded from time to time through the regular annual maintenance contract. They are helpful as a single window for college administrations.

Vice Principal, IQAC Coordinator, CEO and OS help the Principal in the smooth conduction of the college administration. Head of the departments plan and execute the academic and co-curricular activities in the department. Librarian ensures the provision of learning resources for the staff and students.
